

IGNITE YOUR THINKING

Early career dental webinar 2026

Practical Guidance. Real-Life Scenarios. Expert Support.

Wednesday, 13 May 2026

Time: 19.00 – 20.00

Platform: Live on Zoom

Designed for dentists in the early years of practice in Ireland

Starting out in practice can be exciting – and challenging. This interactive webinar is tailored specifically for dentists in their early careers or those new to practice in Ireland.

Join us for a dynamic, panel-based discussion led by experienced clinicians who understand the realities of modern dental practice. Through real-life scenarios and practical insights, we'll explore common challenges you may encounter – and how to manage them with confidence.

What we'll cover

Our expert panel will guide you through practical strategies for managing:

Adverse incidents

What to do when things go wrong – and how to protect both your patient and yourself.

Dental tourism

Managing patients returning from treatment abroad and navigating continuity of care.

Transfer of care

Handling handovers between clinicians safely and professionally.

Difficult interactions

De-escalating challenging situations and maintaining therapeutic relationships.

Social media pitfalls

Addressing inappropriate use by patients or members of the dental team.

Elective and high-stakes treatment

Managing expectations and minimising risk in cosmetic and complex procedures.
