NOTES AND DEFINITIONS applicable to grades/categories and rates

- Dento-alveolar procedures** are defined as surgical procedures involving the intra-oral tissues, teeth and tooth carrying bones, ie mandible and maxilla only. Within this definition are procedures such as tooth extraction (including surgical wisdom tooth removal), apicectomies, periodontal surgery, minor cyst removal, dental/apical cyst removal, minor pre-prosthetic surgery. The private practice rate includes any or all of these procedures, but the placement of dental implants is a specified procedure for which special conditions apply (see grade definition).
- Maxillofacial procedures** are surgical procedures extending beyond dento-alveolar procedures as defined above, and falling within the scope of the recognised specialty of oral and maxillofacial surgery – including (but not restricted to):
 - Open reduction of complex fractures
 - Advanced surgical treatment of malignancy and other pathology
 - Osteotomies (maxilla and/or mandible)
 - Surgery involving the salivary glands, neck, TMJ or orbital complex
 - Rhinoplasty.

PLEASE NOTE

- Failure to notify us of a change of address and/or the scope of your practice could result in a delay in providing or the suspension or withdrawal of the benefits of membership and/or the cancellation or termination of your membership.
- You may cancel your membership at the end of any subscription period by giving us prior notice.
